

MAKE YOUR OWN BUNTING

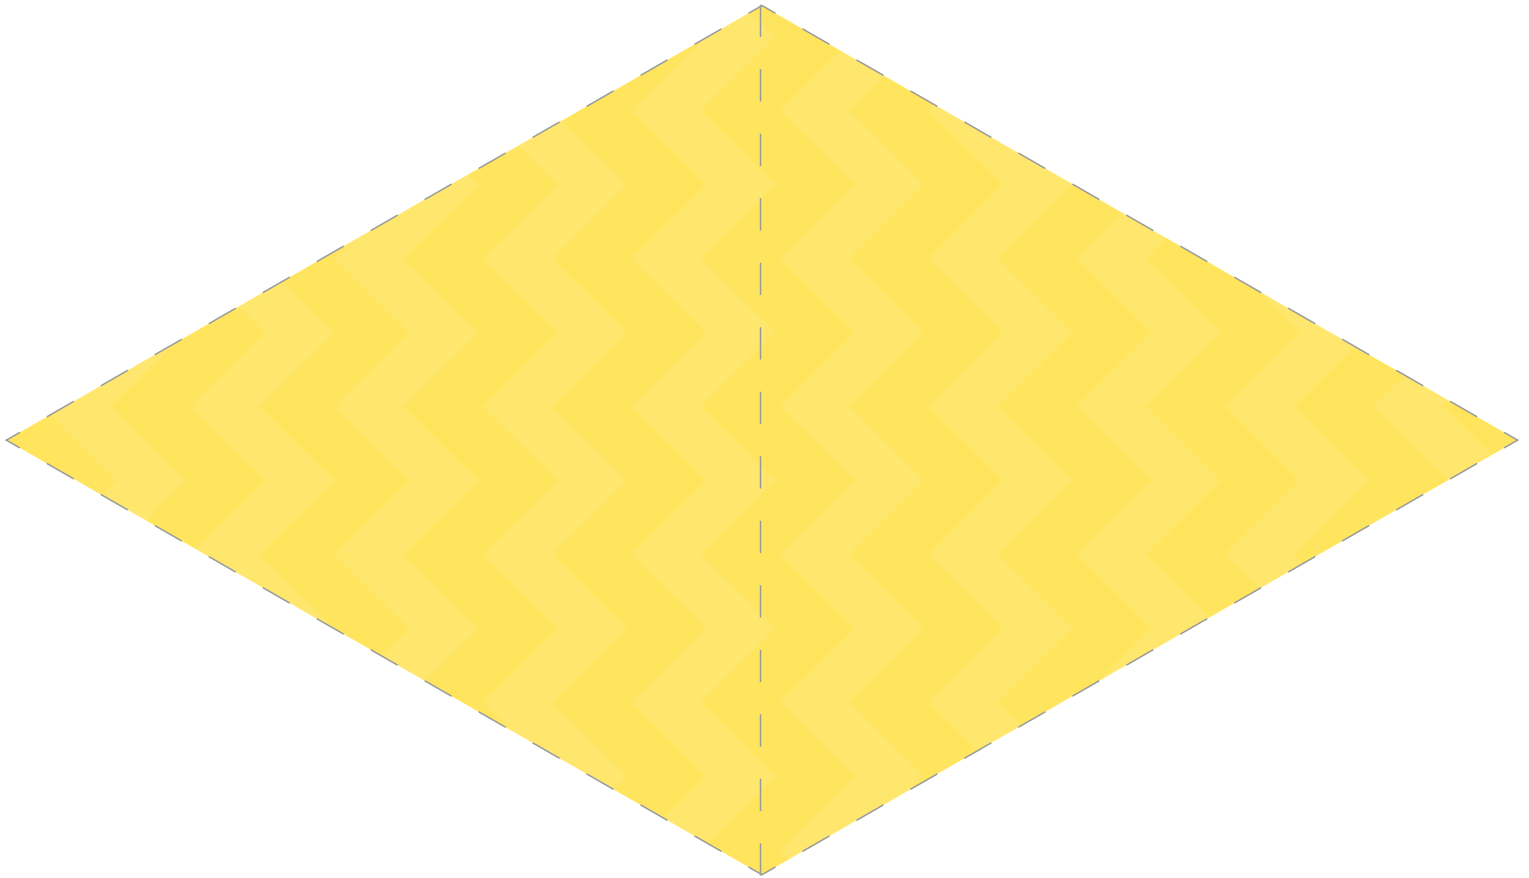

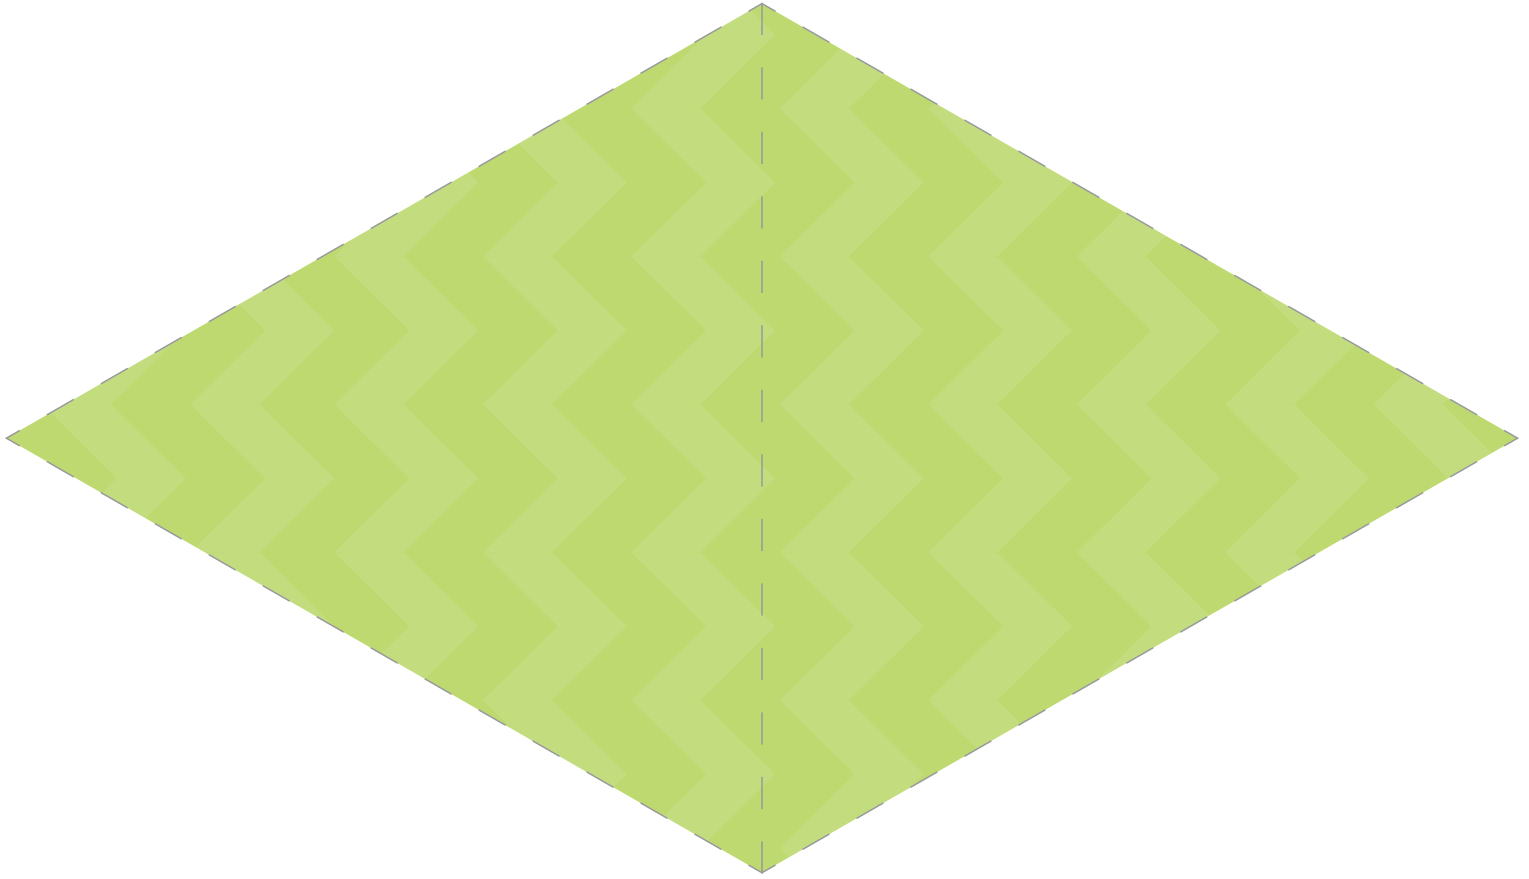

- 1** Print template on thick paper.
- 2** Cut-out each diamond and fold in half.
- 3** Fold each diamond over some twine or plain rafia - secure them in place with double-sided tape.

*Tip: Leave a little space in the middle of your line of bunting so that it doesn't overlap at the hanging-points.
Repeat the steps above for however long you want your bunting to be.*
